1. Introduction

The purpose of this document is to give you an overview of the new and modified features in Strato 1.7.1.0.

The available languages are English, Danish, Swedish, Norwegian, and Spanish. Strato v.1.7 is certified to NOAH 4 and works with Noah v.4.4 or any later Noah versions.

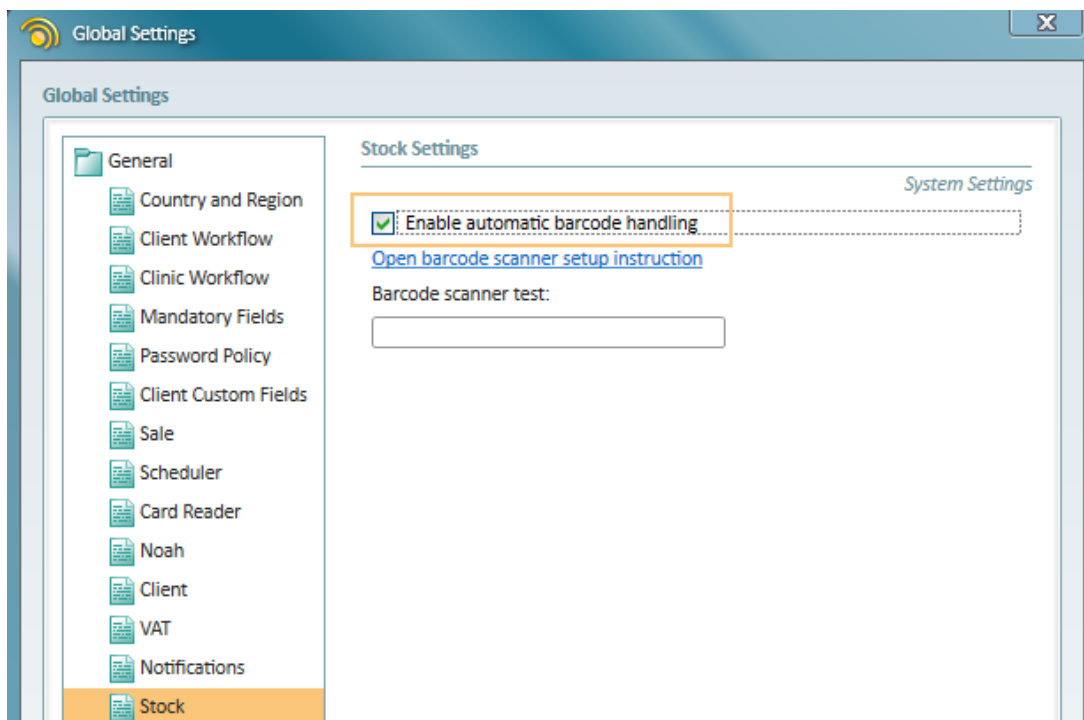

2. System Wide Enhancements

2.1 New Languages Added

Two new languages have been added – Spanish and Norwegian. You can select the required language through **Tools > Global Settings > General > Country and Region**.

3. Barcode Scanning

Barcode scanning, which enables you to use a barcode scanner for reading the HI serial numbers, is now available in Strato. To start using the barcode scanning functionality, go to **Tools > Global Settings > General > Stock** and check the **Enable automatic barcode handling** option.

4. SMS Notifications

4.1 Improvements to SMS Module Handling

A few improvements were made for better handling of SMS notifications.

5. Additional Information
