Table of Contents

1. Introduction

The purpose of this document is to give you an overview of the new and modified features in Strato 1.9.1.0.
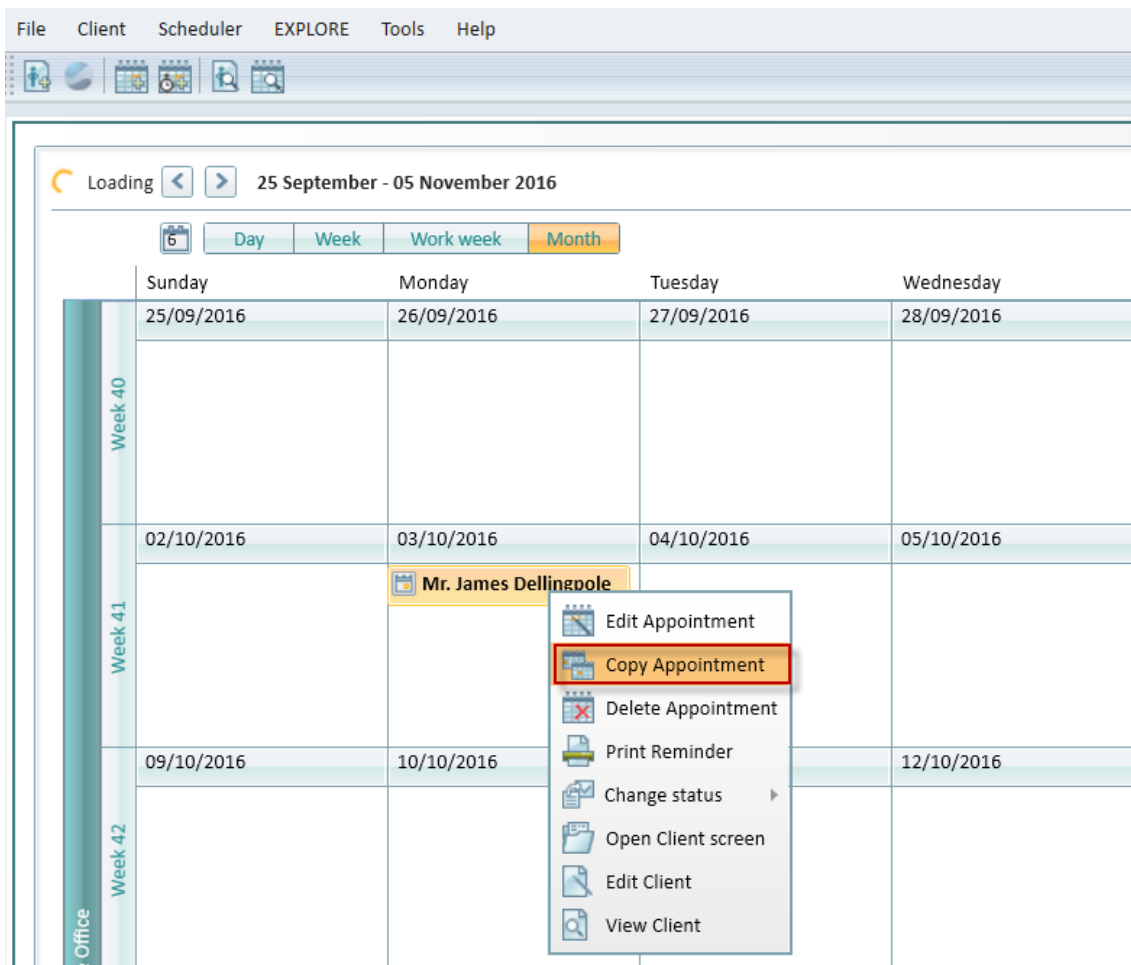

The available languages are English, Danish, Swedish, Norwegian, and Spanish. Strato v.1.9.1.0 is certified to NOAH 4 and works with Noah v.4.6.

2. Noah compliance

Strato v1.9.1.0 is certified for Noah v4.6 (the most recent release of Noah from HIMSA). Therefore, Strato will automatically update Noah to v4.6 when installing or updating Strato.

3. Ability to copy and edit an appointment in SCHEDULER

We have improved the usability when creating the next appointment for a client. You simply select the existing appointment, right-click it and select **Copy Appointment**.

Strato will create a copy of the appointment where you can make the required changes (i.e. modify the date and time, change the appointment type or make any other changes) and save the new appointment.

What's New in Strato 1.9.1.0

---

4. Warranty

Strato now has a more flexible way of handling warranty. We have added a new article type "Warranty" so you can easily add services (for example - "Four years warranty") and then get an overview of your sales of such services within the EXPLORE view.
In the **Sale** tab for the client, we display a list of items with an assigned serial number. This allows you to set the newly created "Warranty Expiration date" for the relevant products.

Purchased Devices (Serial Numbered)

Purchase Date	Article	Type	S/N	Warranty Exp.	
05-10-2016	HI A	HI CIC	45687	05-10-2022 ▾	
05-10-2016	HI A	HI CIC	56874	05-10-202	Extend Warranty

5. Performance

We are constantly monitoring the use and performance of Strato. We pay attention to which functionality is used most often, the response time etc. Based on this real-life data, we are able to optimise Strato continuously.
